Blue Shaded = Regions with adopted conditional waivers Yellow Shaded = Replacing conditional waivers with Waste Discharge Requirements

○ = Will include as program develops

● = Current requirement Blank Cell = Not required at this time

## ILRP ONGOING AND FUTURE DEVELOPMENT

- Initial phase of development
  - Grower enrollment
  - Public education and outreach
  - Ambient monitoring and assessment
  - Stakeholder committees
- Second phase of development
  - Monitoring data collection and assessment
  - Identify priority areas
    - Management Plan development
    - BMP implementation
    - Performance monitoring
  - Team Concept
    - NWQI Projects
    - Water Quality Improvement Projects

#### **ILRP TEAM CONCEPT**

- Agricultural related discharges
  - Complex and diffuse
  - Many stakeholders
- Team Concept
  - Much expertise
  - Multi-agency partnership
    - Water Quality Improvement Projects
  - National Water Quality Initiative
